Education

- University of Toronto, BSc, Mathematics and Physics** Sep 2023 – Dec 2026 (Expected)
- Certificate in Business, Rotman Commerce.
 - Relevant coursework: Ordinary and Partial Differential Equations, Linear Algebra, Multivariable Calculus, Complex Variables, Combinatorics, Computational Physics, Advanced Classical Mechanics.
 - Supplementary: Economics, Business Ethics, Environmental Sustainability, Psychology.
- Dauntsey's School (UK), A Levels and GCSEs** Sep 2017 – Jun 2022
- A Levels: Mathematics (A), Physics (B), Economics (B).
 - Captain of 2nd XI Hockey; Devizes Club 1st Team Hockey; 1st Team Rugby and Cricket.

Skills

- **Data and Technology:** Python (NumPy, SciPy, Matplotlib), JavaScript, HTML/CSS, LaTeX, Excel, Microsoft Office, AI workflow automation, data visualization.
- **Quantitative and Commercial:** Financial modelling, equity valuation, statistical and time-series modelling, optimization, supplier sourcing and negotiation, market analysis.
- **Languages:** English (native), French (working proficiency).

Employment

- Gompels Healthcare, Business Development (Procurement, Property and AI Workflows)** Apr 2026 – Present
- Developed a constrained-integer racking-layout optimizer for the company's new warehouse that increased usable storage by 28% while keeping forklift aisles clear of structural pillars.
 - Built a data-scraping and AI outreach pipeline to find factories across China and screen out trading companies, so negotiations started with verified manufacturers instead of one email at a time.
 - Travelled to Shanghai to run quality control and negotiate pricing in person, selecting the final manufacturer and closing a machinery sourcing deal from first search through to shipment.
 - Prototyped AI-driven workflows that reduced research and quality-checking time, enabling faster decisions during the warehouse expansion.
 - Helped draft the property contracts behind the company's move to a new warehouse.
- EgaTree, Quantitative Researcher Intern** May 2026 – Jul 2026
- Used AI tools to automate client performance metrics and graphs, replacing manual reporting with a repeatable process.
 - Ran scientific research into the foundations of Bitcoin to inform the design of the company's proprietary market indicators.
 - Modelled financial time-series data with statistical and physics-inspired forecasting methods to test and refine those indicators.
- Only Four Ltd, Project Manager** Oct 2023 – Aug 2025
- Processed and dispatched more than 200 orders daily at 99% accuracy under high demand; identified bottlenecks and prototyped improvements projected to cut pick-and-pack time by about 0.5 seconds per item (about 500 hours annually).

Organizational Experience

- University of Toronto Ski and Snowboard Club, Vice-President** Jan 2025 – Present
- Directed day-to-day operations for a student club of more than 400 members.
 - Recruited and managed a team of more than 15 executives to deliver the club's trips and events.
 - Introduced inclusivity policies that lifted member engagement by 20% and reduced planning inefficiencies.
- Phi Gamma Delta, Property Manager** Sep 2024 – Nov 2025
- Rebuilt trust with the owners of a century-old charitable property after two decades of strained relations, restoring a working relationship between the chapter and the owners.
 - Unlocked a \$70K renovation fund through prioritized planning aligned with the owners' objectives.
 - Designed and ran operational workflows for a 45-member team, improving completion rates, accountability and collaboration.
- INSEAD, Summer Program, Business and Entrepreneurship** Jun 2024 – Aug 2024
- Presented case studies and startup simulations in cross-cultural teams, building skills in innovation strategy and pitching.
- InvestIN, Investment Banking Internship** Jul 2021 – Aug 2021
- Built financial models, ran equity valuations and presented M&A pitch decks in banking simulations, gaining exposure to capital markets and client advisory.
- Volunteering, Humanity First, Toronto and Help 4 Homeless, Bath, UK** 2018 – Present
- Prepared and delivered 250 food and toiletry packages across Toronto, and support ongoing meal and clothing outreach in Bath.
